DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

The use of the trademark Penetratin has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

While applicant's have submitted a new specification using capitals, applicant has not provided a sufficient generic definition. Applicant uses the terminology "peptides" to define the trademark. "Peptides" could be any peptides and does not properly identify the product. See MPEP 608.01(v).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
